## Most Entertaining Carnival In Years Plays To Huge Audience

### Frosh Awarded Cup As Soph Rosenthal Steals the Show

On last Saturday evening the twenty-fifth annual Tech Carnival was presented to a large, appreciative audience that filled Alden Memorial to the overflowing. Highlights of the evening were three original skits presented by the Freshmen, Sophomores, and the Faculty. For the second year in a row it was decided by a committee of faculty members and their wives that the freshmen had put on a better play than the Sophomores and for this achievement they were presented with a silver cup on which their class numerals will be inscribed. This must have been a very difficult decision to make, for all three plays were so excellent that the majority of the audience found it hard to make up their minds as to which skit they had enjoyed the most.

The Class of '45's play was entitled "A Night at Murphy's Bar," and was written by Joe Carrabino and Clark Hanley. The skit was introduced by the Master of Ceremonies Philip Tarr, who first led the audience in a period of fifteen seconds silence for the Sophomore class. He then went on to locate the scene of action of the play which took place in Murphy's Bar on the Bowery in the Gay Nineties when Tech Sophomores were really men. The skit was a series of unrelated incidents that occurred in Murphy's Bar on this particular night. Highlights of these short stories were an Englishman, played by Jim Perkins, telling lion hunting stories to a drunkard, Doug Esten, and the accosting of two freshmen, who came into the barroom to drown their sorrows because someone had told them they were anti-social, by three sophomores. Needless to say the freshmen won out in the end. The ending of the play was amusing also, when bartender Joe Carrabino, after twice being unsuccessful in shooting his gangster brother, Prescott Stevens, owing to the lack of sound effects, finally stabbed him in the back to the accompaniment of a gunshot. One of the big items that put the freshman play over so well was the series of unrelated but humorous incidents that were continually taking place in the audience. Other members of the freshman cast were D. Mackay, E. Swanson, J. Saunier, R. Fitts, R. Stengard, G. Gregory, and R. Burns.

The Sophomore skit was introduced by James Donahue who addressed the audience as, "Ladies and Gentlemen and also members of the Freshman Class." He went on to explain that "Physics By M. M." was a typical lecture in freshman physics by a certain Doctor Martin Mosius. Any relation to characters living or dead was said to be entirely coincidental. The play was presented exactly as a physics lecture is conducted, with the banks of seats inhabited by green-looking young freshmen with their skull caps. Dr. Mosius was portrayed by Leon Rosenthal who gave an exceptionally good performance, probably one of the best ever.

(Continued on Page 4, Col. 1)

## Well-Drilled Frosh Soccer Contingent Tops Sophs, 3-0

### Baginski Connects for Two Goals, Langworthy for One As Sophs Fight Vainly

Connecting with good shots, the freshman soccer team Saturday banished all thoughts of victory from the minds of the sophomore booters. Playing in warmer weather than either team had enjoyed this year, the freshmen pushed through two goals in the fourth quarter and one in the third to defeat the sophs 3-0. This was the greatest number of points which the Freshmen have rolled up against an opponent this year.

With the wind to their backs, the Frosh drove into Soph territory immediately after the game started. The Soph team seemed to become stronger at the end of the first period, and after changing ends of the field, they continued their drives on the frosh goal. The Freshmen, however, sent in fresh subs and again held their ground. Play again was up and down the field—neither team having a decided edge. The Sophs fired two very close shots at the goal, but each time they were held by the defending fullbacks and goalie.

The third quarter saw the Freshmen drive for the Soph goal with an unusually fast attack. In a skirmish in front of the goal, Langworthy, frosh half-back, headed a nicely placed ball into the goal. After the kick-off the Frosh again took possession and drove down the field, but this time they were held without scoring. The remainder of the period saw both teams driving hard, but neither clicking when it came to scoring. Several corner shots were missed by both teams. Once a corner shot was driven in by the Sophs, but a sophomore had used his hands, thus nullifying the goal.

In the fourth period the Frosh again drove for the goal where a shot was fumbled by the goalie and touched by the defending fullback. This gave the Freshmen a penalty shot which was kicked and made by Baginski. After the kick-off the Sophs drove harder than ever, but each time they were set back by the defenders. The Freshmen again drove for the Soph goal and Baginski again tallied, this time with a well placed kick into the corner of the net. After these two scores the Sophs began to drive in earnest. Time and again the forward line brought the ball down the field only to miss by a close margin. The game ended with the Sophs in possession of the ball, advancing down the field. The Soph forward line was especially effective during the last five minutes. The game ended with the score 3-0 in favor of the Freshmen.

## Prof. Meyer Entertains Civil Dept.

"Fun and feuds" were the highlights of an evening's entertainment at a "Civil Department Get-together" at the home of Professor and Mrs. Meyer.

Present at the gathering were Professor and Mrs. Knight, Professor and Mrs. Fillion of the faculty. Students present were: Seniors: G. E. Andreopoulos, S. J. Bellasai, P. C. Disario, J. Ford, D. L. Hartwell, F. J. Oneglia, E. Totti, and S. W. Williams. Others present were: R. A. Bierweiler, J. L. Durkee, G. W. Golding, C. H. Handforth, B. Messer, F. C. Santom, E. J. Scarpa, and R. "Pettibone" Seaton.

The evening's entertainment ranged from a delicious meal prepared by Mrs. Meyer to Hawaiian dances by Marilyn and Ruth Meyer, daughters of Professor and Mrs. Meyer.

The entertainment included contests between the Seniors and Juniors. These contests were scored on a point basis—the winner to be determined in this manner. Field Judges were Mrs. Knight and Mrs. Fillion. Event starter was Professor Knight and the Inspector was Professor Fillion.

Contests included a milk drinking contest (out of a baby's milk bottle), smelling race, a feeling race, and other humorous contests. The final score showed the Seniors to be far ahead by about twenty points.

## Swimming Practice Shifts To High Gear As Varsity Reports

### Grant Believes Lack of Distance Swimmers Past; Sprint Men Are Plentiful

Swimming practice shifted into high gear yesterday afternoon after the reporting of Frosh swim team candidates. Varsity men have been at work all during the week.

"There are a number of capable swimmers among the first year men," says swimming coach Frank W. Grant. "In my gym classes I have seen a few likely candidates for each swimming event."

Coach Grant believes that his team will be more successful this year than it was last season.

"We lacked distance men last year, but the Sophomore candidates now fill up this hole," said Mr. Grant.

It is expected that time trials will be held within the next two or three weeks. Swimming has been included in the Tech sports program since 1927. Coach Grant began his work here in 1929.

The line-ups were:

Fitzner, g	g. Thompson
Scott, rf	rf. Maass
Tarr, lf	lf. Moulton
Burns, rh	rh. Swenson
Boyski, ch	ch. Twitchell
Swanson, lb	lb. Burr
Kokufusa, ro	ro. Hagstrom
Baginski, ri	ri. Uar
Leanza, c	c. Kerren
Flink, lf	lf. Hellig
Pano, lo	lo. Zetting

Frosh subs: Tenerowicz, Langworthy, Fendahl, Fitts, Perkins, Clark, Gregory.  
Soph subs: Schultzeiss, Lagerholm, Newton, Telzerow, Blodgett, Brown, and Mickiewicz.  
Referee: Watson. Time: 88 minutes.

## Highly-Touted Freshman Football Team Extended To Edge Spirited Sophomores

### Rev. Dr. Roy Speaks On "Opportunity" At Chapel Service

Rev. Dr. Thomas S. Roy, pastor of the First Baptist Church, was the speaker at last Wednesday's weekly Chapel service of the S.C.A. His subject was "The Seats of the Mighty."

He spoke of those who have eyes but see not; people who see opportunity but do not recognize it as such. When opportunity comes knocking at your door, it won't have a label on it. He cited Lord Beaverbrook as an example of a man who recognized his chance. Lord Beaverbrook grew up in the same town in the Maritime Provinces with Rev. Roy as Max Aiken. While working at his first job, he saw a notice that a bank was for sale. He suggested to his employer that buying a bank might prove a good investment. The next morning, he announced to his employer, who had completely forgotten the suggestion, that he had bought the bank and sold it again the same day at a profit of two thousand dollars. In later life, after he had amassed quite a fortune, Lord Beaverbrook took to buying up defunct newspapers which their publishers had given up as a losing proposition. He bought them because he saw in them possibilities which other people overlooked. Now, these newspapers are all operating at a profit.

If we are to occupy the seats of the mighty in this world, says Rev. Dr. Roy, we must see beyond our fellow men and recognize our opportunities when they are presented to us.

## AIEE To Sponsor A Joint Meeting and Lecture With ASCE

### Hans Passburg To Give Illustrated Talk on the Wilson Dam Construction

Friday, November 21, 1941, the Student Branch of the American Institute of Electrical Engineers will hold a joint meeting with the Student Branch of the American Society of Civil Engineers in the Alden Social Room at seven-thirty o'clock. Mr. Hans Passburg, electrical engineer with the Western Massachusetts Companies, will present a talk on "Wilson Dam and the Cobble Mountain Hydroelectric Project." The talk will be illustrated by slides and will deal with the component factors involved in the construction and operation of a hydroelectric plant. Freshmen interested are invited to attend in addition to regular members of the electrical and civil engineering departments.

### '44 Forced to Pin Hopes On Many Inexperienced Men Puts Up Good Stand

In a hard-fought contest on Saturday, the Freshmen beat the Sophomores 7-0 on the gridiron. To both teams this game was important. The Freshmen wanted a victory in order to capture the goats-head; the Sophomores needed a victory to buck up their morale and to keep the goat's head from the Freshmen. Although the Sophs strove hard, the smoother working Freshman team overpowered them in the second quarter. It is evident from Saturday's game that the coaching the Freshmen have been receiving added to the fact that they have been playing as a unit all season is what made the difference between defeat and victory for them. The Sophomores, who were well coached by Bob Pritchard, had not played together enough and had practiced only a week.

The first period of the game was not very spectacular, since it resolved itself into a kicking duel between Pat Stowell for the Sophs and Bill Taylor for the Frosh. In the closing seconds of this quarter, little Joe Tivnan intercepted a Sophomore pass. This set the Freshman up for a march down the field that ended on the Sophomore five yard line, at the end of the period.

In the second play of the second period, Joe Tivnan completed a pass to Bill Taylor in the end zone. Taylor then proceeded to convert the extra point. The Sophs could not seem to get rolling in this period, in spite of the herculean efforts of all, spurred on by Nic Economou and Pat Stowell. Again in this period the nimble toe of Pat Stowell kept the Sophomores in the game, while Bill Taylor of the Freshmen returned the kicks for the yearlings.

The third period started out interestingly with a successful pass good for forty yards from Tivnan to Roberge. The Freshmen, however, could not make anything out of this start. Again the ball was continually flying up and down the field, propelled by Pat Stowell and Bill Taylor. Nevertheless, the small crowd that attended the game was kept on tenterhooks all of the time, for no one knew what would happen next.

In the fourth quarter the Sophomore attack strengthened to its peak of the day, but it was not strong enough. With Stowell, Economou, and Donahue doing most of the ball carrying—and doing a good job of it in spite of poor interference—the Sophs tried to get started. Things looked bad for the Sophomores when little Joe Tivnan intercepted one of Pat Stowell's passes. However the Freshmen were stopped and the Sophomores regained the ball. The second year men now started in earnest to go after a touchdown. Using only one huddle for two plays, and sending out about five men for pass receiving on each play, the Sophomores covered more ground than ever before in the game. Donahue and Economou sparked the running attack.

## Editorials

### To The Class of '44

Sophomores! We, the upper classes, saw you go down to triple defeat in one day. It was bitter defeat that you felt at the hands of your Freshman rivals. Yes, you were beaten at soccer, at football, and you were judged second best at acting. Yes, you were beaten—three times in one day.

To the Freshmen, we say congratulations for their fine spirit, but to the Sophomores, we take off our hats for a fighting spirit which showed itself for the first time in a long, long while. Lacking good football material and decided underdogs in a match which was heralded as one-sided, you were able to play clean, hard, aggressive football in spite of defeat.

But your spirit did not end here. You fought hard against a well-knit, organized Freshman soccer team and went down to defeat. It was hard to swallow these two defeats all at once but you did! You did a fine job of this because you were sportsmen and gentlemen.

Then you put your best men on the stage of Alden Memorial for what you thought was going to be a prize winning comedy. Here again you tasted defeat as you were judged second best. All this happened in one day—one day of humiliating defeat and discouraging bad luck.

Yet, with all this, with all these defeats, you continued to take your setbacks with sportsmanlike courage and gentlemanly bearing. Your actions are commendable.

### Approaching Rush Week

With only a few more days left before the beginning of Rush Week, we wish to remind the Freshmen to make the best of the remainder of this week to become well-acquainted with the fraternity men at the dorm. Remember, fellows, your remaining years at Tech hinge on the impressions you leave with your upperclassmen at the present time. If you are willing to sacrifice a spare hour or so after supper each evening to spend with these men, you will undoubtedly gain an experience which will stand you in good stead for years to come. On the other hand, if you insist on evading them by dashing up to your room as soon as you have finished your meal, you will not only lose their friendly companionship, but valuable advice as well.

Grasp this opportunity to meet as many of your college mates as possible, and you will find it so much the easier to mingle with Tech men later. Everyone realizes that this will keep you away from your books for a part of the evening, but the benefits derived by allocating your time to this cause will more than compensate for the time spent.

Undoubtedly, some of the finer men will be overlooked in this first Rush Week because of their failure to meet the upperclassmen; but it is not too late to alter the situation. If you are overlooked at first, you still have a chance during the second rush period.

## Letters to the Editor

1. *TECH NEWS* will publish all letters received from contributors providing:—  
a. The name of the writer is known to the editor (a pen name may be used when this is fulfilled).  
b. The letter is not lengthy.  
c. The writer does not become slanderous.
2. Drop your contributions, sealed in an envelope, in *TECH NEWS* box, Boynton Hall.
3. *TECH NEWS* welcomes all student, faculty and alumni comment.

Dear Editor:

In spite of W. P. I.'s disastrous football season this fall, and in view of games won and lost, on paper we have a team that is worthy of the Eastern Rose Bowl bid.

Consider:

On Nov. 1 W. P. I. lost to the strong R. I. State team by a score of 6-0. On Oct. 11, Brown beat R. I. State by a score of 14-7. Therefore Brown is only 13 points better than W. P. I.

On Nov. 1, Brown beat Yale by a score 7-0. Therefore by comparative scores Yale is only 6 points better than us.

On Oct. 25, Dartmouth beat Yale by a score of 7-0. Therefore Dartmouth is only 13 points better than W. P. I.

On Oct. 11, Dartmouth beat Colgate by a score of 18-6. Therefore that puts Colgate in the position of being only 1 point better than W. P. I.

On Oct. 25, Cornell beat Colgate by a score of 21-2. Therefore by comparative scores Cornell is 20 points better than we.

On Oct. 11, Cornell beat Harvard by a score of 7-0. Therefore Harvard is only 13 points better than W. P. I.

Now:

On Saturday, November 8, Harvard beat the Army by a score of 20-6, and since Harvard is only 13 points better than W. P. I. and since Harvard is 14 points better than Army, that puts W. P. I. in the position of being 1 point better than the Army.

Also on Nov. 1 Army and Notre Dame played to a 0-0 tie. Therefore by comparative scores we are also 1 point better than Notre Dame.

Also on last Sat. Notre Dame beat the Navy by a score of 20-13. That makes W. P. I. 8 points better than the Navy.

As Navy, Army, and Notre Dame are considered to be three of the strongest teams in the East and since on paper W. P. I. is better than any one of them,

Where is that Rose Bowl Bid?

Sincerely yours,

HARVEY W. MAURICE

## THE DRAMA

### Freshman Act

"A Night at Murphy's Bar" opened with a typical barroom scene and around this ingenious stage setting most of the action evolved. The performances of the various members of the cast were done in a spirit typical of many Carnival performances. The Englishman, played by James Perkins, was well-received. The bartender, acted by Joseph Caribino, was worthy of mention.

The situations which presented themselves in the audience on several occasions added to the humor of the skit.

It might be said that the familiar pattern of the Freshman farce was met with general approval by the audience.

To the cast of the play and the Class of '45, roses.

### Sophomore Act

The Sophomore skit, "Physics by M.M.", was presented in a spirit which was indeed complimentary to the characters it was intended to depict. The fine interpretations showed intensive study on the part of the cast.

The excellent performance of Leon Rosenthal as Dr. Mosius was worthy

(Continued on Page 4, Col. 2)

## Fraternity News

### Phi Sigma Kappa

The election of officers for the fall term resulted in the choice of Fred Shippee as President, Bob Grant as Vice President, Dayton Brown as Secretary, Gordon Raymond as Treasurer, Pete Messer as Inductor, and Jim Donahue as Sentinel.

The house in conjunction with Phi Gam held a roller skating party last Monday, which was a great success. New stairs to their game room are being built.

### Theta Chi

Work on the game room is nearing completion. The room is being finished with oak stained wall boards and composition block ceiling with recessed lighting.

Besides ping pong table and chairs to be given by the Mothers Club, venetian blinds are being bought by Mrs. Woodbury.

### Sigma Alpha Epsilon

Plans for a house party over Interfraternity Ball weekend were discussed by S.A.E. at their meeting last Thursday night. A sleigh ride is planned for the Saturday after the Ball, and a tea dance will take place on the same afternoon. Final plans will be completed next week.

## Plowing in a 1600 mile telephone furrow

## for defense

To assure coast-to-coast telephone facilities adequate to meet future defense needs, the Bell System is constructing a 1600 mile, \$20,000,000 cable line between Omaha and Sacramento.

Several newly developed "plow trains," working from opposite ends of the line, are burying the cable for maximum protection. They dig deep furrows, lay two cables in them and cover them with earth—all in one continuous operation. Their meeting will mark completion of the first all cable line across the continent. Carrier systems will be operated in the cables—one direction of transmission in each.

This vast project is just one of thousands in which the Bell System is now engaged to provide additional communication facilities so vital to Army, Navy and defense industries.

# FRATERNITIES AT WORCESTER TECH

## ALPHA EPSILON PI

25 Dayton Street

Founded at New York University November 7, 1913 Active Chapters—29	Epsilon Deuteron Chapter Founded December 19, 1940 Total Membership 3500
---	---

Alpha Epsilon Pi Fraternity was organized on November 7, 1913 by a group of students attending New York University. Almost from the very start they planned a national fraternity. In the course of a few years charters were granted to chapters at Cornell and Penn. State. Following this, growth was rapid and there are now chapters and alumni clubs in all parts of the United States.

The local group was founded as a chapter of Sigma Omega Psi Fraternity representing the men of Jewish faith on the Tech campus in 1919. A merger in 1940 incorporated Sigma Omega Psi into the folds of Alpha Epsilon Pi Fraternity. The present chapter home is at 25 Dayton Street.

### Officers

L. Goldrosen, Master; S. Stayman, Lieut. Master; L. Hershoff, Scribe; Lehrer, Corr. Scribe; Mendelsohn, Exchequer.

**Seniors:** Robert Bendett, Burton Franklin, Louis Goldrosen, Herbert Goodman, Saul Lehrer, Mitchell Lerer, A. Cline Mendelsohn, Hyman Weinstein.

**Juniors:** Leonard Hershoff, Richard Jamron.

**Sophomores:** Herbert Asher, Irving Gerber, Leonard Israel, Leon Rosenthal, Sidney Stayman.

**Pledge:** Gouse, Julian.

## THETA CHI

86 Salisbury Street

Founded at Norwich University April 10, 1856 Active Chapters—50	Epsilon Chapter Founded March 20, 1909 Total Membership—15,000
--	---

On October 12, 1905, nine undergraduate members of the Worcester Polytechnic Institute formed a society which they called Pi Omega Pi. This fraternity began as an athletic society, and one of the restrictions for membership was that a candidate must have received a varsity letter in one of the recognized sports at Tech. As this restriction was later found to be too severe, the aims were broadened to include "primarily to foster clean athletics at Worcester Polytechnic Institute."

The first home of Epsilon Chapter was at 1 Lancaster Terrace. Here the chapter lived and held meetings until 1917, when the large duplex house at the corner of Dean and Salisbury Streets was taken over.

### Active Members

**Faculty:** Prof. Victor Siegfried, Prof. Carl Meyer, Prof. Samuel Plimpton, Mr. Edward Armstrong.

### Officers

Pres., J. Richard Weiss; Vice-Pres., Leland Ekstrom; Sec., Charles Parker; Treas., Robert Painter.

**Seniors:** J. Richard Weiss, George Birchall, Leland Ekstrom, Philip Hastings, Elbert Hubbard, Charles Parker, Philip Walder.

**Juniors:** William Bennett, John Chandler, Robert Painter, Frederick Lindblad.

**Sophomores:** Norman Blodgett, John Archer, Calvin Davis, Charles Cannon, Frank Foster, David George, Alfred Larkin, Goulding Warren, Kimball Woodbury.

**Pledge:** Manuel Queijo.

## SIGMA ALPHA EPSILON

6 Humboldt Avenue

Founded at University of Alabama March 9, 1856 Active Chapters—113	Mass. Delta Chapter Founded April 10, 1894 Total Membership—50,000
---	---

Sigma Alpha Epsilon Fraternity was founded on the ninth day of March, 1856, at the University of Alabama, in the old city of Tuscaloosa. Eight students who had become hard and fast friends were the founders of this brotherly society, which was destined to extend to the furthestmost limits of the country and eventually to become the largest Greek-letter fraternity in the world.

The Massachusetts Delta chapter of Sigma Alpha Epsilon is the second oldest of the Tech fraternities, having its origin in what was known as the Tech

Co-operative Society which was founded in the fall of 1892. The society form of organization was adopted because there was faculty opposition to fraternities at that time, but in the spring of '93 application for a charter was made to the national S. A. E. fraternity and as a result, the new chapter was installed on March 10, 1894.

### Active Members

**Faculty:** Prof. Charles N. Allen, Prof. Herbert Taylor, Dr. Robert Young, Prof. Percy Carpenter, Prof. M. L. Price, Mr. Ray C. Boggs, Mr. Edward Hafey, Mr. William B. Wadsworth.

### Officers

Pres., Galpin M. Etherington; Vice-Pres., Albert S. Ashmead; Recorder, Carl A. Giese; Correspondent, William A. Walsh; Treas., Edmund C. Altenberger.

**Seniors:** Boyd R. Abbott, Edmund C. Altenberger, Albert S. Ashmead, Frederick J. Bargiel, Gordon J. Chaffee, R. Milton Cole, Ralph A. Fraser, James D. Houlihan, John H. Quinn, John F. Sullivan, Victor Tolis, John M. Townsend.

**Juniors:** Roger M. Beard, Carroll Bennett, Hugh M. Brautigam, Galpin M. Etherington, Carl A. Giese, Herbert W. Hope, John W. Huckins, James H. Parlman, Bruce E. Smyth, Pierre Volkmar, Malcolm W. Walder, William A. Walsh, Ralph L. Smith.

**Sophomores:** Louis T. Bartlett, Thomas A. Bombicino, Warren H. Chaffee, Benjamin B. D'Ewart, David M. Field, Stanley E. Sherman, Allan C. Gault, Douglas G. Noiles.

## ALPHA TAU OMEGA

24 Institute Road

Founded at Virginia Military Institute September 11, 1865 Active Chapters—93	Mass. Gamma Sigma Chapter Founded November 27, 1906 Total Membership—33,300
---	--

The Worcester Tech Chapter (Mass. Gamma Sigma) of Alpha Tau Omega began as a local fraternity known as the "Arm and Hammer." In the fall of 1903, Roger Del French together with five other men, concluded that there was room for another fraternity here at Worcester Tech.

A constitution was drawn up and the name "Arm and Hammer" was adopted, the idea being taken from the Tech seal and the spirit which it indicated. Its existence was unknown for several months, but the club had steadily grown, and when it was finally made public it was a very compact group. The club acquired a house on West St., and there, in 1906, it was installed into Alpha Tau Omega. The present chapter house is at 24 Institute Road. This was purchased in 1909, and an addition was built and extensive changes were made in the fall of 1929.

### Active Members

**Faculty:** Prof. A. H. Holt, Prof. T. H. Morgan, Prof. H. H. Newell, Prof. Claude K. Scheifley, Mr. Frank K. Shallenberger, Mr. Gordon T. Gurney.

### Officers

Pres., Richard H. Kimball, Jr.; Rec. Sec., Arthur D. Wilson; Corr. Sec., Einar A. Ericson; Treas., Harold E. Crosier, Jr.; Chaplain Walter K. Deacon.

**Seniors:** Harold E. Crosier, Jr., Walter K. Deacon, Norman A. Kerr, Richard H. Kimball, Jr., Donald R. Packard, James J. Sheehy, Samuel W. Williams, Jr., Norman A. Wilson.

**Juniors:** Henry C. Durick, Ralph G. Fritch, Jackson L. Durkee, Philip J. Gow, Glennon B. Hill, James L. Loomis, Harry H. Merkel.

**Sophomores:** Philip P. Brown, Kenneth D. Cashin, J. David Clayton, James W. Dashner, Roger G. Edwards, Jr., Einar A. Ericson, George L. Fetherolf, Jr., Robert A. Green, David L. Haight, William A. Hermonat, Jr., John A. Keeling, Robert H. Maass, William K. Neumann, James T. Pearce, John J. Robinson, Warren H. Tabor, J. Gorham Underhill.

**Pledges:** Nicholas N. Economou, Francis J. Mickiewicz, Donal R. Whitney.

## LAMBDA CHI ALPHA

30 Trowbridge Road

Founded at Boston University November 2, 1909 Active Chapters—107	Pi Zeta Chapter Founded June 15, 1939 Total Membership—30,000
--	--

Pi Zeta of Lambda Chi Alpha was started as a local fraternity, Zeta Sigma Tau, on December 5, 1912, by a group of Juniors in the Class of 1914. The new local fraternity flourished and was granted, on June 15, 1913, a charter from the national fraternity of their choice, Lambda Chi Alpha. Guided by the influence of the national fraternity, the development of the new chapter was steady and permanent. The first chapter house was located on Fruit St., but

(Continued over)

# FOR FRESHMAN CONSIDERATION

in 1916, the present house at 30 Trowbridge Road was purchased and has been occupied by the chapter since that time.

## Active Members

**Faculty:** Dr. Raymond K. Morely, Prof. H. A. Maxfield, Prof. W. W. Locke.

## Officers

In 1909 six men of the Institute founded and started a local fraternity known as Theta Chi. When a chapter of the national fraternity Theta Chi came to Tech in 1911, the name was changed to Kappa Xi Alpha. This fraternity, still local, remained until 1915 when it became a chapter of the national fraternity Phi Sigma Kappa. Now every Phi Sigma Kappa automatically becomes a member of the Alumni Corporation which is known as Kappa Xi Alpha.

Lambda Chapter  
Founded  
November 10, 1935  
Total Membership—8748

At Lehigh University, Bethlehem, Pa., in 1919 a group of twelve men with similar ideals and beliefs bound themselves together and formed an organization known as the X Club. The group prospered until the war, when the entire membership enlisted. Following the war, only three of this group returned to Lehigh. These men, after reorganizing the X Club chose the Greek letter name of Theta Kappa Phi for their new organization. Affiliation with a similar organization at Penn. State, members of which had been buddies in France, with the X Club group formed the nucleus for the national fraternity, which has since spread throughout the United States.

Lambda of Theta Kappa Phi was formed in the fall of 1930 at Tech and was known as the Friars. As a local they soon made their presence on the Hill felt and were admitted to stand as a fraternity. Such rapid progress was made during its five years of life that national affiliation was deemed necessary and was culminated in the installation of the Friars as Lambda of Theta Kappa Phi on November 10, 1935.

Although a young fraternity Sigma Phi Epsilon has been a pioneer in the fraternity field for the last fifteen years. Its youth has been its greatest asset. The fact that practically all national fraternities have adopted one or more of the ideas originated by Sig Ep is a tribute of the highest order.

The Sig Ep Chapter at Tech is the outgrowth of Theta Upsilon Omega, and Delta Tau, a local founded at Tech on February 17, 1906. Since that date growth has been so rapid that the present fraternity ranks 12th among the nationals in the country.

Pi Iota Chapter of Phi Gamma Delta, oldest of Worcester Tech fraternities founded its local chapter in the fall of 1891. A year previous to that a student who had transferred to Tech, which was then a small college, together with several of his chums decided to band together in a club. As fraternities were just coming into popularity, a petition was submitted to Phi Gamma Delta, and the society was admitted in November, 1891. After several experiments in location, the active chapter then purchased the property at 99 Salisbury Street from Stephen Salisbury, and built the present house there in 1899. Owing to the fact that it was the first fraternity at Tech, the college co-operated with the organization and the opening of the chapter house was one of the social events on the Hill.

## SPORT SIDELIGHTS

By Ed Peterson

Last Saturday was general cleanup day for the Class of 1945, as they took over the sophomores in football and soccer, thus raising the count for the Goat's Head trophy to 8-2. One more point is all that is necessary for the freshmen to win, and if they succeed they will be the first freshmen to win the trophy since the class of '41, who won the title in their first year at Tech. . . . According to pre-game theories, Saturday should have treated both classes equally well, with the freshmen coming out on top by a big score in football and the sophomores having their own way in soccer. None of these theories were quite right, however, for the sophs were doomed to defeat in soccer, and the lopsided freshman victory in football was toned down to a very respectable 7-0 win. Coach Bob Pritchard of the sophs sent his team on the field with a razzle-dazzle defensive setup that had the frosh completely baffled for a time. . . . The next event in the interclass competition will probably be the basketball game. The freshmen have some good material in

this sport but the sophs aren't exactly weak in that department, having had four men on the varsity squad last year.

Holy Cross was stunned Saturday by a fighting team from Manhattan who tied the powerful Crusaders and came very close to winning. Last year the Jaspers gave Holy Cross quite a scare when they came from way behind almost to tie the score. Both last year and this year it was a powerful passing attack that kept Manhattan in the ball game against the superior strength of Holy Cross.

### Cosmopolitan Club Meeting On Friday

The Cosmopolitan Club will hold a meeting Friday, November 21, 1941, at Dean Howe's home on Boynton Street at 7:30 o'clock. Mr. Harold C. Woodbury, father of a Tech student, will present "A Trip Through the National Parks and Mexico," supplemented by colored slides.

### Interfraternity Relay Teams Warm Up For Approaching Indoor Track Season

Every afternoon after the regular classes of the Institute have let out, little knots of men drift over to the Gym, don shorts and sneakers, and begin to run—or walk—around the indoor track. These tirelessly plodding figures are the first indication of the arrival of the intramural relay season, which starts this year on Monday, December 1.

Of course, it is far too early to predict any results accurately; doubtless some veterans will not live up to their expectations, while many boys with hidden talent will be uncovered. Nevertheless some pre-season observations can be made. Lambda Chi Alpha and Phi Sigma Kappa last year tied for top position in the intramural loop, each team winning seven races and losing one; Phi Sig won the post-season run-off. This year Phi Sig returns stronger than before, with a team composed entirely of last year's veterans—Messer, Sherman, Powell, and Grant. Lambda Chi has many good prospects, but no veterans. Theta Chi and Phi Gamma Delta, who finished in third and fourth positions, respectively, last season, also have some experienced men, and should make a strong showing.

No changes have been made in last season's rules. Four races are to be run on every Monday, Wednesday, and Friday from the first of December until the Christmas vacation. The first race on each night shall begin at 5:00 o'clock. To be eligible to run, a contestant must have at least six training checks credited to him. Pre-season training began on November 12.

### Phi Sig Takes 8th Match To Win Net Cup

With wintery blasts sweeping the tennis courts, the Greek letter men are trying to beat the oncoming of winter in finishing up the interfraternity tennis schedule. The Phi Sigma Kappa netmen have already finished their games, and in addition are assured of first place and the tennis cup by virtue of the fact that they are the only undefeated team. Phi Sig's last game was a closely contested net battle between Harding and Crossley and the A.E.P. team of Lou Goldrosen and Sid Staymen. The final scoring was 6-3, 3-6, 6-0.

Second place will be settled in a "battle to the end" between Alpha Tau Omega and Theta Kappa Phi which will be held sometime this week.

With but three games now remaining on the card, the final standing will probably not be much changed from the present standing which is as follows.

	Won	Lost
P.S.K.	8	0
A.T.O.	6	1
T.K.P.	5	2
A.E.P.	5	3
L.X.A.	5	3
P.G.D.	3	5
T.X.	2	5
S.P.E.	1	7
S.A.E.	0	7

### Coach Stagg Issues Call For Courtmen

Many Veterans Report Including Lotz, Stone, Oneglia, Harding, Kerr

Getting a jump on the 1941-42 basketball season, Coach Stagg called the first practice last Wednesday afternoon for all those upperclassmen who have been out before and who were not participating in any other fall sport. All freshmen and remaining upperclass candidates will report Monday, November 17.

Coach Stagg said he was pleased with the performance of the candidates who reported last Wednesday. Among them were three lettermen: Co-Captains Oneglia and Lotz, and Bill Stone. Coach Stagg said that he did not form any definite teams as he was waiting for the balance of the expected squad to report. Cutting will probably start around the end of this week.

Upperclassmen who were on deck for the first workout last Wednesday are: Lotz, Oneglia, Stone, Kerr, Jones, Yakutis, Harding, D. Russell, Birchall, E. Totti, Landers, Santom, Hallahan, Sherman, Lipovsky, Ekstrom, Hermonot, Tolis, Peterson, Campbell, Turek, Stowe, Kakanowski, N. Totti, and Hill.

### Cross-Country Team Finishes With Four Losses and One Win

Running of Captain Hunt Outstanding Throughout Fairly Successful Season

The Engineer Cross Country team finished its season this year with a final standing of four losses and one win. Actually, the season was much better than this would appear to indicate; for two of the losses were by but two points, and were virtually moral victories even if the team did end up on the long side of the score. The first meet was with the Coast Guard Academy, at New London. It was run in a ninety degree temperature that would have made less ambitious persons seek a cool shady spot and a pitcher of ice water. In spite of the heat, however, Ken Hunt lived up to his reputation for lightning speed, and led the pack across the finish line to break the course record of the sailors. Gordie Sherman of Tech and Jerry Rea of C.G.A. both fell but a few yards from the finish line to climax a thrilling third place battle, which, coupled with the severe heat caused them to collapse of heat exhaustion. Coast Guard won the meet with 21 points to Tech's 35.

The second meet which was to have been with Trinity was cancelled at the last minute because of the lack of interest in the sport at Trinity. The second defeat of the year came from the excellent Connecticut University harrier team led by Charlie Robbins who finished first with Tribou and Hubbard in a triple tie. Their time was two seconds over the course record of 20 minutes, 15 seconds. Ken Hunt trailed them closely to finish ten seconds later in fourth place.

The first tough luck defeat was on Homecoming Day, when Mass. State just barely nosed out the Engineer team to win by two points. Ken Hunt won his second first place of the year by galloping home in 20 minutes and (Continued on Page 4, Col. 2)

### Higgie's Novices Conclude Year With .500 Average For Six Games of Season

### Tech Gridders End Stupendous Season "Sans" Touchdown

Coach Stagg Hampered by Scarcity of Material In Initial Year at Worcester

The past football season turned out to be one of the most disastrous in Worcester Tech's history. The new head coach, Paul Stagg, and new line coach, Bob Pritchard, hampered by lack of material and the freshman rule, had quite a job on their hands. Lack of reserves was one of the most acute problems. After having fielded his starting eleven, Coach Stagg had only a half dozen or so capable reserves left to play.

The record for the year stands no win against six defeats. The team reached its peak when it held a supposedly powerful Rhode Island State outfit to a 6-0 score.

The opening game of the year saw the Engineers travel to New London to play one of the finest Coast Guard teams in years. Playing in a mid-summer heat, the Tech team wilted before the Tars unending supply of reserves, 48-0.

The Trinity game started off as if Tech were going to roll as Bob Seaton romped 100 yards with the opening kick-off to score. However, the play was called back. The tide soon turned and the Blue and Gold from Hartford tallied 35 points in the first half. The Engineers braced in the second half and held Trinity scoreless.

In the first home game American International College administered a 41-0 whitewash. This game marked the return of Bob Allen, senior triple-threat back, who had been injured before the season got under way.

Homecoming Day brought Tech's traditional rival, Mass. State, to Boynton Hill. State, tallying four very lucky touchdowns and one that they deserved, handed the Engineers their fourth straight setback, 32-0. The Tech team showed great improvement in this game, and only a couple of unlucky breaks, which Mass. State took advantage of, allowed the score to go so high.

Against Rhode Island State in the mud and rain Worcester Tech's football forces reached their peak of the season as they turned back the Staters with but one touchdown. Tech outplayed "Rhody" a good part of the way but was unable to score. Bob Allen's kicking was the feature of the game.

For the final tussle of the season W.P.I. traveled to Troy to meet an R.P.I. team which was out for revenge. No one will forget Worcester's memorable victory of last year to spoil R.P.I.'s undefeated season. The Trojans were out to get Tech and they did to the tune of 47-0.

Doing stellar work for Tech this year were Captains "Andy" Andreopoulos and Gus Saarnijoki, George Vogel, Bob Hanckel, Bud Aubertin, Ed Peterson, Bob Montgomery, Bob Seaton, Nick Economou, Ray Herzog, and Bob Allen. Those seeing frequent action were Don Buser, Bert Marsh, "Sport" Moroz, Al Larkin, "Casty" Wight.

Only three men will be lost by graduation. These are Andreopoulos, Saarnijoki, and Allen. Although their loss will be felt, much better things are expected next season.

### Season's Training Helps Raw Charges for 1942; Sprague Sole Vet Leaving

Tech's 1941 soccer team boasts of an even .500 average for the season. It sports a record in its scheduled games of 2 wins, 2 losses, and 2 ties, and in other games not on its regular schedule it came out with a win and a tie. The win was a post season game with the hard-fighting Freshmen, and the tie was a mid-season practice session held with the Fitchburg State Teacher boys.

The first game with Coast Guard on October 4 turned into a 2-0 defeat for Coach Higginbottom's inexperienced team. Starting the game were only four regulars of the year before, the rest being sophomores. It was a well-played game with the breaks definitely going to the Coast Guard boys. One of Tech's men accidentally headed the ball in giving them the first goal, and an unusual corner kick provided the other score.

The following week came the Trinity game, and it started off as though it were going to be a walkaway for the boys from Hartford. In first ten minutes of play, they scored three goals, leaving the Tech men in awe. Coming out of their bewilderment, however, our engineers kept pounding and driving in the second half and finally tied it up at 3-3 a few minutes before the game ended. George Collins and Butch Ipar were responsible for the goals. In the 10 minute overtime, Tech continued its assault which was finally climaxed by Ipar's second goal, thus giving Tech a brilliant win, 4-3.

On October 18, Connecticut Univ. visited Tech and proved to be a much tougher nut to crack than did the boys from Trinity. Coming here with a renowned team the U-men made Tech hustle and the result was that it was a swell game by both teams. Don Allen's head accounted for the only Tech goal in this exciting game in which the Ucons pushed through two. It was a tough game to lose for Tech, but it was a swell feeling to know that they had given one of New England's best teams such a good battle.

In the second home game of the season Tech was all primed to beat another team with a good reputation—Tufts. Tufts boasted a nice victory over the strong Wesleyan team and expected no doubt to repeat last year's 4-0 victory over the Tech team. A different story turned out, however, and even though the Jumbos scored the first goal, Tech pushed through three during the game to shatter Tufts' record for the season. Collins, Ipar, and R. Schulteiss were the scorers for Tech.

A postponed game with Clark brought about the final home game of the season. On a muddy field, the hard-fighting underdogs from the other end of the city surprised every one, even themselves, and held Tech to a scoreless tie. It was a sloppy game afield due to the slippery conditions, but nevertheless it was a keenly fought one.

The last game of the season climaxed by a week-end trip to Troy was played against our rival engineers from R.P.I. This game, played in the morning, was also played on a muddy field. Rensselaer's Spanish speaking boys who really can play soccer found themselves up against a young team of engineers who don't know what it is to give up. R.P.I. tallied the first goal, and a chance to equalize the score was thrown away when a penalty kick was missed for Tech. This would have (Continued on Page 4, Col. 3)

## Robert Quinn Receives Wings

Robert F. Quinn, who attended Tech from 1936 to 1939, was recently commissioned a second lieutenant in the U. S. Army Air Corps. He was among the 98 cadets from 25 states who received their wings at the Air Corps Advanced Flying School, Barksdale Field, Louisiana.

Lieutenant Quinn received his primary school training at Alabama Institute of Aeronautics, Tuscaloosa, Alabama. He has been assigned to Jackson, Miss., to the GHQ air base of the Third Air Force.

## Carnival

(Continued from Page 1, Col. 1)

given on a Tech stage and certainly one that will be remembered by the audience long after the significance of the plays has been forgotten. Other good impersonations were given by Roger Edwards as Edwin, and William Neuman as Doctor Bottler. Comedy was injected into the play when several of Dr. Mosius' experiments went wrong and when two freshmen walked into the lecture late. The final scene saw Dr. Mosius being propelled to the roof on the end of a rope while demonstrating Newton's ninth law that every action has a reaction. The motto of the Physics Department was displayed prominently as, "They Shall not Pass." Other members of the Sophomore cast were J. Gibson, G. Fetherolf, S. Alperin, H. Sheldon, G. Underhill, I. Gerber, R. Holden, and R. French.

The faculty play had the very misleading title of the "Preliminary Dream." It was written by Professor French of the English department and was a fantasy that showed a young Freshman at Worcester Tech being showered with exams that he could not do, by three very solemn professors. The scene shifts and shows a stern-looking man with a brief mustache, named Nitler and played by Professor Atwood, being informed by two of his agents, Ersatz and Hunger, that there is a revolt in the Province of Worcester Tech. It seems that a freshman refuses to pass his preliminary exams. Nitler decides that he must be made to pass and calls in Dr. Gable, played by Professor Scheifley, who in turn calls in three men who are experts on marks, Groucho, Chico, and Harpo Marks. The Marks Brothers sing two songs and finally, as they were almost at a loss as to what to do, Winston Churchill, played by Professor Downing, volunteers his services. The R. A. F. is enlisted and they bomb the poor freshman with knowledge so that he passes his exam.

The Tech band rendered several numbers before the first play and between the skits Bill Bennett and Ken Parsons entertained on the piano and trombone respectively. After the faculty play Professor Adams presented the Freshman class with the cup they had won for the presentation of the best undergraduate play. Other members of the committee were Prof. and Mrs. C. F. Meyers, Prof. G. H. MacCullough and Mrs. Adams. Dancing was then enjoyed by all the couples in the commons room of Sanford Riley Hall where the Boyntonians played for their first school dance of the season.

On the whole it was a most enjoyable evening and everyone who had any part in it at all should be heartily commended. However, special bouquets should be given to Joe Carrabino, Clark Hanley, and Prof. French, for the fine plays they wrote and produced, to Professor Wellman for an excellent imitation of Groucho Marx, to Professor Atwood for a very fine impersonation of Hitler, and last but not least, a whole greenhouse full of flowers to Leon Rosenthal who ran away with first honors for the best performance of the evening.

## Drama Review

(Continued from Page 2, Col. 3)

of an Academy award. The prologue presented by James Donahue is worthy of mention.

What perhaps added considerable to the performance was the thought foremost in most student minds—Why wasn't this done before? The incidents depicted in the play were familiar to the students and, therefore, appealed to the students.

To the cast of the play and the Class of '44, in spite of the judges, orchids.

### Faculty Act

"The Preliminary Dream" was an ingenious presentation of a student's dilemma at the taking of a preliminary examination. The weaving into the plot of political figures of the day added humor and interest to this unusual farce.

The spirit with which Dr. Atwood entered into his part as Nitler met with complete success. Professor Wellman's interpretation of Groucho Marks was professional. His presentation of "Keep a Fifth Column Up Your Sleeve" was cleverly done.

The proctors were at ease, if not typical.

To the cast, to the Faculty, in particular Mr. Bryant French, orchids.

—by Critique

## Cross-Country

(Continued from Page 3, Col. 3)

25 seconds. About a quarter of a mile from the finish Tech was all set for a tie score, but Caldwell of the Aggies put on a powerful sprint to overtake the Tech runner just ahead of him, and thus win the meet for his team.

After tasting the bitter fruit of defeat in the first three meets, the Tech C-C men came back in the meet with Boston University to avenge their defeat of the previous year by literally drowning the opposition. A recent article about cross-country which appeared in the "Saturday Evening Post," said that cross-country meets are run whether it rains, snows, or freezes; this was the case in the B. U. race for both teams slogged and waded through nearly four miles of mud and water. Ken Hunt again garnered a first place by beating Dewhurst of the Terrier team, and Gordie Sherman came through in fine style to place third. The remainder of the Tech runners closely followed the leaders, and when the totals were completed it was discovered that Tech had won 26-29 to break their long losing streak.

In the final meet of the year, the W.P.I. harriers found the mile longer course of Rensselaer just a bit too much for them, and were beaten by the same margin by which they had won the week before, the final score being R.P.I. 26, W.P.I. 29. Ken Hunt, running his last cross-country race for Tech, again turned in an excellent performance to take first place.

The Freshman cross-country team had a brief, and unhappy season. This was due to the three plagues which any team fears, namely lack of material, cancellation of meets, and injuries. The first and only race of the

year was with the Conn. Univ. freshmen harriers, and resulted in a 20-39 defeat for the Tech yearlings. Although only five freshmen turned out for the team, three of them were good, and turned in low times in the meet. Hallissey finished second and Mel Hunt and Edwin Canner followed him not too far behind. However Mel Hunt sprained his ankle in the race, and this injury, coupled with the cancellation of the high school and the R.P.I. meets wrote finis to the '45 hopes.

## Soccer

(Continued from Page 3, Col. 5)

been enough to discourage any team, but Tech kept pushing and finally managed to push through the equalizer. From then on, through another 10 minute overtime period, it was a hard fought game between two groups of potential engineers. No more goals could be scored, however, and Tech ended its season with its second tie game in a row.

Coach Higginbottom is to be praised to the utmost, for he built his team, which by the way ranked around fifth in New England, around four veterans,

Then Co-Captain Wilson was forced to quit the team after the second game, leaving only three veterans—Co-Capt. Harry Merkel, Glen Hill, and George Sprague. It was no easy task to teach his boys the fundamentals and have them put them into practice, but "Higgie" did his job swell.

Among the special features that cropped out during the season was the progress of George Collins who never played soccer before. George made the starting line-up after the first game and he never gave up his position thereafter. His hard fighting won the respect of every one. Butch Ipar's skill of handling the ball made every one of the season's spectators applaud him. The play of the Tech backfield was outstanding in every game, and it improved steadily in the last three games. They allowed only two goals by them in the last three games. Out of the season of six games, three had overtime sessions, making them 98 minutes long—and boy that is a long time. Tech always came from behind in every game except that one with Clark. The opposition always managed to score first. The fellows just had to get their "dander" up before they could go out and score.

Next year promises to be a banner year for Coach Higginbottom and his

boys. Only one regular will be lost through graduation. He is our stellar fullback George Sprague. Although his loss will be greatly felt, there are many prospects in line, including two very good ones from the Freshman team, to fill his boots beside big Glen Hill. The boys will be more experienced next year and Higgie won't have to spend all his time on fundamentals. He will be able to dwell on the details which were lacking this year and thus produce a team that will be tops.
